

TURKEY

The University of Roehampton has one of the most diverse international student populations among its peers with representatives from over 115 countries around the world. Of the 10,000 total students, approximately 10% are identified as international. The University warmly welcomes a healthy cohort of Turkish students each year. We currently have 15 students from Turkey – this number is likely to increase in the coming intake.

Programmes such as the International Foundation Certificate (designed for students leaving Turkish high school and requiring an additional year of study), BSc Marketing and MSc International Management offered by the Business School are most popular among Turkish students at Roehampton but Turkey is represented by many other Departments such as the Department of Life Sciences and Department of Education.
